

BAROSSA KEY PRODUCTION FACTS

Barossa has approximately 170 wine companies and 550 independent grape growers. In 2018 the Barossa vineyard area (13,989ha) accounted for 10.5% of Australia's national total. The 2018 Barossa production (68,564 tonnes crushed) accounted for 3.8% of the total national crush. Despite its relatively small size from a global perspective, Barossa has a world class reputation for producing some of Australia's most awarded and recognised wines.
